

NOTICE TO LYNN RESIDENTS: 2020 HYDRANT FLUSHING PROGRAM

June-July 2020

Please be advised: The Lynn Water & Sewer Commission will be conducting hydrant flushing between the hours of 6:00 - 10:00 pm during June and July, starting Monday June 22, 2020.

Rusty and dirty water may be experienced for a short time during and after flushing. If the water appears dirty, leaving the tap open for several minutes following flushing should clear the pipes. **Prior to doing laundry, residents are advised to check the hydrant flushing schedule.**

This program is necessary to clean the distribution system of residual materials that normally settle out in the mains during the year so as to ensure the delivery of better quality water during the coming summer months.

Per: Daniel O'Neill
Executive Director
